

LECTURES AND EXHIBITS FOR  
DENTAL TECHNICIANS and DENTURISTS

**REGISTER ONLINE:**  
**WWW.SPECTRUM-DAY.COM**

**REGISTER BY PHONE:**  
**PALMERI MEDIA GROUP**  
**TEL: 1 905-489-1970**  
**TF: 1 866-581-8949**  
**EXT. 206 / 207**

**SPECTRUM DAY**  
**EDMONTON**  
**2019 April 26-27**  
**FRIDAY - SATURDAY**

**Location:**

Fantasyland Hotel  
West Edmonton Mall, 17700 87  
Ave NW, Edmonton, AB T5T 4V4

**ADMISSION:**

Early Bird (Until April 22nd): \$179 + GST  
Regular (As of April 23rd): \$219 + GST

*Includes Breakfast, Lunch, Breaks and Cocktail Reception*

# Spectrum Day EDMONTON

## REGISTRATION

Fax Completed Form to: (905) 489-1971

Mail Completed Form to: **Palmeri Publishing Inc.**  
35-145 Royal Crest Court, Markham ON L3R 9Z4

Call: 1-866-581-8949 ext 206 / 207 for information

**EARLY BIRD**

**\$179** +Tax

Until April 22, 2019

**REGULAR**

**\$219** +Tax

As of April 23, 2019

### REGISTRANT INFORMATION:

First name: \_\_\_\_\_

Last name: \_\_\_\_\_

Address: \_\_\_\_\_

City: \_\_\_\_\_

Prov: \_\_\_\_\_ Postal Code: \_\_\_\_\_

Phone: \_\_\_\_\_

Email: \_\_\_\_\_

Please note that by giving us your email, you are giving Palmeri Publishing Inc. permission to send you emails/CEM's. We respect your privacy and you can unsubscribe from our emails at anytime.

### Payment Information:

Cheque (\*Please make cheques payable to Palmeri Publishing Inc.)

Visa     MasterCard     Amex

Amount Authorized: \$ \_\_\_\_\_

Card Number: \_\_\_\_\_

Exp. Date: \_\_\_\_\_

Card Holder Name: \_\_\_\_\_

Signature: \_\_\_\_\_

### Refunds/Cancellation Policy

Participants cancelling will not receive any refunds. Costs incurred for travel and hotel accommodations remain the responsibility of each participant.

# Friday April 26

Registration: 12:00pm - 3rd floor

Exhibit Hall: 12:00pm - Beverly Hills Ballroom

12.30pm-1.30pm

*Dean Swift*

## **Micro-Macro Orientation - The little things that control the BIG picture**

An in-depth look at what professionals are exposed to on a regular basis and how it may be affecting the functions of their bodies. Principles of Infection Control will be presented in an integrative fashion. Discussions will touch on the Gut microbiome, Antibiotic resistance, Asthma and Allergic reactions as a result of chronic exposures in clinical practice.

**Dean Swift** is a Development Biochemist and Educator with special interests in Microbiology, Biofilms, Biomaterials and Toxicology. He has strategically developed and/or clinically nurtured over 130 Medical-Dental-Personal Care products to market for more than a dozen companies. At Micylium, his projects include development of antimicrobials, periodontal diagnostics, acne creams and diabetic toothpastes.

1.30pm-2.30pm

*Ross Stanimirov*

## **Innovations in Digital Materials**

For some time now, materials have been trying to catch up with rapidly developing digital technologies. With its latest developments, Ivoclar Vivadent has taken digital materials for highly esthetic dental restorations to the next level.

In this lecture, Ross Stanimirov R.D.T will discuss the new IPS e.max ZirCAD Prime and explain how Gradient Technology makes Prime a 'one-disc-solution'. The latest innovation in digital dentures, SR Vivodent CAD Multi with its natural transition of colour and translucency, will also be discussed.

**Ross Stanimirov** is a registered dental technician from Montreal, Quebec with over 20 years of experience in the dental field.

For the past 11 years Ross has worked with Ivoclar Vivadent Inc. as the National Field Technical Specialist and has provided hands-on training to dental professionals nationally. Ross has extensive experience working with Ivoclar Vivadent's all ceramic portfolio which includes IPS Empress, IPS e.max®, SR Nexco. Annually, Ross travels to the Ivoclar Vivadent manufacturing facility in Liechtenstein to upgrade his training by the R and D staff; where he could collaborate with other international Ivoclar Vivadent Field Technical Specialist on the nuances of Ivoclar Vivadent products.

2.30pm-3.00pm Exhibit Hall - BREAK

3.00pm-4.00pm

*Devaughn Fraser*

### **CAD.CAM for Laboratory & InLab Software 18- Intro**

**Devaughn** has worked in the health industry for 16 years - 12 of which specifically as a technician, or in the capacity of Director of Highland Dental Lab. Seeing, and anticipating the morphing dental landscape, modernization began at Highland 12 years ago with the acquisition of their first in-house milling unit. Since that time, no other lab or practice in Canada has created more restorations with their Sirona MCXL than Highland.

Ten years later, the lab is truly state of the art with multiple scanners, mills, and a 3D model printer. Not to be overshadowed by equipment, Devaughn has received advanced design certificates from Sirona and Vita. Further, he is numbered amongst a lucky few that are 'Global inLab Trainers', certified and instructed in Germany and Italy. Devaughn self identifies as a 'tooth nerd' and can be found immersed in a dental publication or tinkering with his dental 'toys'. Beyond that, Devaughn is an avid outdoorsmen, rugby fanatic and suffers from a congenitally defective sense of humor.

4.00pm-5.00pm

*Dominic Babinski*

### **3D Printing in Dentistry – The What, the How and the Why**

3D printing in dentistry is growing in leaps and bounds. Learn what you can do with a 3D printer in dentistry, how to do it and why it may make sense for your business.

**Dominic Babinski**, CPA, CMA is the VP of Sales and Corporate Development for Central Dental Ltd. and Dent-line

of Canada. Mr. Babinski has worked in the dental industry for over twenty-five years and in that time has helped dental professionals successfully integrate technology solutions ranging from digital radiography, scanners and software into their businesses. He's lectured on dental technology across North America for a wide range dental associations and groups.

5.00pm-5.30pm Exhibit Hall - BREAK

5.30pm-6.30pm

*Bassam Haddad CDT*

**Be a part in "The Wind of Change", ceraMotion One Touch**

Achieve complex shade match with full zirconia crowns, gum shading and translucencies within the incisal edge. Explaining how surface morphology can affect the surface gloss, intensity characterization and tooth contour.

Learning Objectives:

- Shade matching of full zirconia crowns
- Gum shading on full contour implant zirconia bridges
- Incisal translucency using One Touch 3D pastes
- Texture, morphology and tooth surface gloss
- Intensive characterization and tooth contour using ceraMotion One Touch 3D , 2D pastes

**Bassam Haddad** has graduated in 1990 and earned many professional international certifications and masteries of various systems of dental technology. He is serving as a opinion leader consultant for Dentaurum. He is known for giving passionate lectures and hands on courses. He is the author of several international articles and a proud member of Oral Design international group.

6.30pm-7.30pm Exhibit Hall - COCTAIL RECEPTION

# Saturday April 27

Spectrum Day Edmonton, 2019

**Registration** 8:00am - 3rd floor

**Breakfast** 8:00am-9:00am - Beverly Hills Ballroom

**Exhibit Hall: 8:00am-1:00pm - Beverly Hills Ballroom**

9.00am-10.00am

**VITA®**

*Victor Castro*

### **Lithium- Zirconia Materials: High Strength and Uncompromised Esthet**

In today's market, there is a high demand for strength and esthetics. For most available materials there is a solution for one or the other, but not both at the level that exceed patient expectations. Until now..!

The introduction of a highly translucent zirconium- reinforced lithium silicate glass ceramic foundation, supporting average biaxial strengths of over 541Mpa with uncompromised shade consistency with streamlined processing steps will be presented. In addition, for the production of "bread & butter" monolithic crowns, new pre-shaded highly translucent and multicolor zirconia materials that rival micro-layered ceramics are now available to address anterior esthetics and posterior strength concerns without the need for internal or external staining for shade matching. Now, two "Out of the Box" materials meeting patient needs, strength, shade tab reproduction, and have simplified process work-flow are available.

**Victor E. Castro** was born in New York City and raised in South America. Today he owns Studio-280 in Houston, Texas. His artistic abilities have enabled him to work with the most prominent dental offices in Houston. He has been helping dentists and specialists create functional and cosmetic dental restorations since 1991. His working relationships have given him the ability to specialize in full mouth rehabilitation to single tooth replacement. Victor joined the group "Art and Experience" by Claude Sieber in 2008.

10.00am-11.00am

*Olivier Tric*

**Evolution: ensuring success in 2020**

The profession of Dental Technology is in the middle of a metamorphosis. In this lecture Olivier Tric will offer insights on the current trends and the direction the dental profession is taking. He covers his recipe for achieving excellence on a daily basis focusing on layering techniques through an extensive analysis of his clinical cases. He also defines his strategy for long-term success that will help you reach a new level in your work quality, efficiency, marketing, and communication.

**Olivier Tric**, MDT, CDT, began his studies in France at the College of Leonardo De Vinci and the University of Pharo while concurrently pursuing an apprenticeship in Dental Technology. After a 5 year apprenticeship, he launched a 15+ year career devoted to a thorough understanding of the principles of Dental Aesthetics and the mastery of specialized techniques in Dental Laboratory Technology. His specialties include all facets of porcelain restorations on both natural teeth and osseointegrated implants. He is recognized by his peers as a pioneer in the industry by developing new and unique methodologies that are taught worldwide. He is widely published on the topic of ceramic layering techniques and aesthetic dentistry in industry journals such as Dental Dialogue, Practical Procedures & Aesthetic Dentistry and Quintessence Dental Technology. He also serves on the Editorial Board for Spectrum Dialogue, and Teamwork Magazine. His professional affiliations include Design Technique International (DTI), Oral Design International Foundation, and others.

Mr. Tric is a highly respected lecturer and educator, teaching hands-on courses to dentists and technicians throughout the United States, Canada and Europe. He is regularly consulted by leading Dental Manufacturers and Laboratories for input on new product development. He currently operates Olivier Tric Dental Laboratory and Educational Center in the Chicago suburb of Elmhurst, Illinois.

11.00am-12.30pm Exhibit Hall - LUNCH

12.30pm-1.30pm

**“Partnering on Digital Solutions to Expand your Business”**

*Henry Schein Prosthetic Solutions team*

The lecture will outline the options for workflows, equipment and materials to establish a successful digital solution in your lab or clinic. We will also share examples of implementations and share resources to grow the capabilities and portfolio of the lab or dentist.
